## INTRODUCTION

This index covers the first nine volumes of the *Acta Romana*, from the year 1906 through 1940. It lists chiefly those items which may be of practical aid to government in the American Assistancy. A few others, such as those concerning indulgences and certain historical data, have been included because of their general interest.

Volume 4, which contains the decrees of the 27th General Congregation (1923) is sometimes better known as the *Statuta* of that congregation. Items pertaining directly to a Province are grouped under that Province instead of being scattered throughout the index. The official *Responsa*, captioned A or B from the year 1924, have been gathered together in an appendix (pages 53-58).

May this index contribute in a practical way towards greater exactitude and efficiency in carrying out our vocation *Ad Majorem Dei Gloriam*.
